

**CONSTRUCTION  
DIVISION**

 **MUNROE**

## **PACKAGE BOILERS**

***Total Repair & Rebuild  
Capabilities for Water &  
Fire Tube Package Boilers***

- Complete or partial tube replacement
- Casing, refractories, and insulation replacement
- Expert code welding on water legs, stay rods, and sectional tube replacement
- Mechanical tube cleaning
- Boiler rental service available

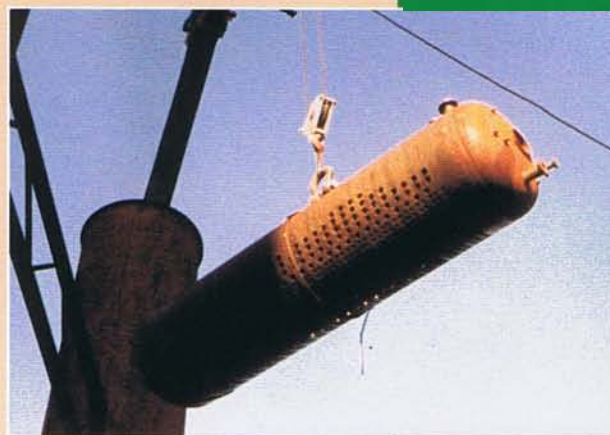

# PLANT MAINTENANCE

## ***Boiler & Steam Plant Repairs and Modifications***

- Complete boiler rebuild services—including tube, header, and drum replacement
- Heat exchanger retubing—feedwater heaters, turbo condensers, gas coolers
- Pressure vessels—ASME code repairs, alterations and modifications
- Process equipment—fractionating column, tray replacement, ASME welding
- Three large plants with over 200,000 square feet of floor space—specializing in tubular boiler components and ASME code fabrications

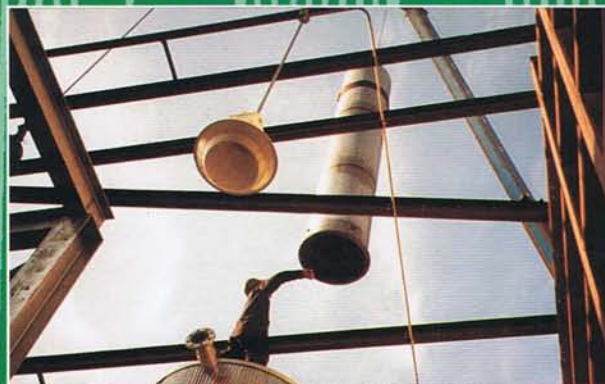

## NEW PLANT CONSTRUCTION

*Turnkey Construction for  
Complete Steam Plant  
Installations from Excavation  
through Start-Up*

- **System Design**  
*Steam plant systems to  
meet your requirements*
- **Equipment & Material  
Procurement**  
*Boilers, economizers,  
feedwater, water treatment,  
fuel and all related boiler  
auxiliaries*
- **Instrumentation & Controls**  
*Systems to meet your  
operating needs*
